

BOOK V — EXPERIMENTAL SWARM ANNEX

Document ID: PH6-BOOKV-CONSOLIDATED-1.0

Role: EXPERIMENTAL

Status: ACTIVE (advisory and research use only)

Question Answered: What may be explored safely.

B5 § 1 — Advisory Boundary Notice

This document is advisory research material only. Authority: **ZERO**. Lane 2 only. MRAM-S only.

B5 § 2 — L2_EXPAND Scientific Advisory Token Mode

Bounded scientific advisory token analysis without altering deterministic authority.

B5 § 3 — Swarm Token Science Model (STSM-1.0)

- **RT:** Reference Token
- **VDT:** Virtual Decay Token
- **VLT:** Virtual Longevity Token

B5 § 4 — Token Science Pipeline

Evidence References → RT generation → Swarm token workers → VDT → VLT advisory promotion → Hypothesis topology → MRAM-S.

B5 § 5 — Swarm Worker Roles

Reference, Comparison, Decay, Stability, Topology, Audit.

B5 § 6 — Safety Constraints

- No CRAM mutation.
- No PASS/DROP influence.
- No EvidencePacket inclusion.

- No authority-chain participation.

B5 § 7 — Reserved Extensions

Swarm Mesh Extensions (Runtime **DISABLED**).

B5 § 8 — Developer Interfaces (Scaffold)

Proposed module layout for `ph6_l2_expand` .
